

## MBSI Southeast Chapter Lending Library:

The Lending Library of the MBSI's Southeast Chapter contains many hard to find and technically valuable references on all types of mechanical music. These books are available for checkout by any Chapter member without charge. Whether you need to fix your Cuckoo clock, determine the date of your music box, repair your player piano or find some weird automatic instrument in an 1898 German catalog – the Southeast Library can help you in your quest and improve your life! These books represent a substantial financial investment. If you check out only one book a year, instead of buying it at the list price, your MBSI membership has paid for itself! A Chapter member may borrow up to three books at a time.

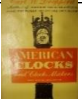

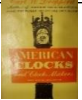

**Checking out a book is easy:** Just send an email to [library@mbsise.org](mailto:library@mbsise.org). Include your name and book requests. The books will be sent USPS Media Mail to your address already on file with MBSI. You may read and reference the book(s) for up to 120 days. (If the book shows as "currently checked out", still send an email to get on its waiting list.

**Returning a book is easy, too:** To return the books, mail them back. We pay postage to you, you pay the return postage. Or, you may deliver them to any Chapter Officer at the next Southeast Chapter meeting.

**Our library is growing!** We have received eight books about clockwork mechanism repairs and clock collection as a generous donation from the VanZantens. Look over our new books and check some out !

**Make a Donation:** Is it time to clear out some shelf space at home? Many useful or important books about our hobby are missing from the list below. If you have a related book and would like to donate it to the Chapter Library. Please email [library@mbsise.org](mailto:library@mbsise.org) to receive shipping information and a certificate of thanks from the Chapter.
